

Well Site Pre-Completions Prep

With the need to streamline cost in today's completions, Boreal Pumping has been offering its Complete and extremely versatile Horsepower Spreads to help reduce the cost of the rig in/setup of pre-frac operations on single and many multi-pad locations in WCSB.

What can Boreal do for you?

- Pressure testing
 - Wellheads and Buffalo Heads
 - Casing against toe ports for DIR-83 Requirements
 - Wireline Lubricators & BOP's
 - Stump testing
- Single and multi-well annulus support utilizing our Mongoose hose and manifold
- Injectivity and step rate testing
- DFIT with live REAL TIME streaming
- Pumpdown support of guns if a Wireline Plug & Perf completion is used
- Acid Spearhead, Bullhead & Wash
- Complete Frac Support
- Full 2" and 3" 1502 15k iron packages that includes our own safety restraint system

Horsepower Spread Capabilities

Pressure		Pumpdown Spread (2500HHP)		Twin Spread (1700HPP)		Body Job (600 BHP)	
		Max Rate m3/min		Max Rate m3/min		Max Rate m3/min	
MPa	psi	One Unit	Two Units	One Unit	Two Units	10K Unit	15K Unit
25	3500	3.20	6.40	2.10	4.20	1.00	.750
34.5	5000	2.50	5.00	1.16	2.32	.550	.650
45	6400	2.15	4.30	.850	1.70	.450	.450
69	10000	1.25	2.50	.750	1.50	.300	.250
103	15000	.750	1.50	.550	1.10	N/A	.150

SERVICE COMPARISON TABLE FOR PUMP-DOWN OPERATIONS ON MULTI WELL PADS
